REPORT
OF THE
SUPERINTENDING SCHOOL COMMITTEE,
FOR THE YEAR ENDING
MARCH 8, 1864.

DISTRICT No. 1.

The school of small scholars was kept three terms of 12 weeks each, by Mrs. Mary L. Taylor. Mild and gentle in her manners, she gains the affections of her pupils, and controls them with the greatest ease, and advances them in their studies in the most successful manner. It is the ninth year Mrs. Taylor has had the charge of this department, which she has managed with consummate wisdom and ability. For pastime and variety the school is taught to sing in a most delightful manner.

Mrs. Taylor has never done better for the school than she has the past year.

The department of larger scholars has also had three terms. The first school was taught by Miss Celia L. Moulton. She was a teacher of much experience and acquitted herself in an able and successful manner.

The Fall term was taught by Miss Lucy E. Fellows. She was a thorough, efficient teacher and promoted successfully the improvement of the school.

The Winter school was taught by Mr. E. B. Powers, of the Junior Class in Dartmouth College. Mr. Powers possesses a strong, well balanced mind, and great energy of character. The same zeal which places him at the head of his Class in College he carried into his school. He labored very hard for the prosperity of the school. His discipline was mild but most efficient. His instruction was of the most thorough kind. Under such management the school made rapid improvement. A succession

of such schools as his would give an entirely new character to this department.

DISTRICT No. 18.

Winter term 14 weeks. Miss Samantha R. Kinne, teacher. She is one of our best teachers, maintaining good discipline, and successfully promoting the improvement of her pupils.

Whole number of scholars 10.

Our schools the past year have been under the care and instruction of 27 different teachers—two males and twenty-five females. Whole number of scholars 342.

Some of our schools have attained to a higher standard than last year, and with few exceptions there has been a general and commendable improvement.

In higher branches the schools in Districts No. 7, 4, 5, 13, and 1, are in advance of the others.

There has been one school house renovated at a cost of \$300. Some others have been more or less repaired, and three others, at least, ought to be repaired by new ones.

The Superintending Committee have made some 80 visits to these schools, and have endeavored faithfully to look after their interest.

We have been gratified that the writing of composition has been practised by many, who are in the higher branches of study and that proper attention has been given to reading and spelling.

When parents purchase books, we would recommend, that they procure the following—Town's Spelling Book, Town's Series of Reading Books, Weld's and Quackenbos' Grammar, Adams' Arithmetic, Greenleaf's National, Emerson's and Colburn's Mental Arithmetics, Quackenbos' History of the United States small and large, Colton & Fitch's Geography, Cutter's Physiology, Davies' Algebra.
